## **Panel: Future directions for MWAIS**

The Midwest chapter of the Association for Information Systems (MWAIS) was authorized as an official chapter of AIS during Fall of 2005. MWAIS is hosting its 7th research conference. Overall the Chapter has been successful in providing a forum to share ideas in traditional ways. As we broaden our leadership team and move to empower new leaders, this meeting is an excellent venue to share novel program ideas and discuss future directions.
