### ABSTRACT

The purpose of this panel is to share best practices and lessons learned dealing with Cybersecurity in the Trenches.

### Keywords

Cybersecurity, Risk Assessment, Risk Mitigation, Cybersecurity Policies.

### Panel Overview:

The panel consists of experts in cybersecurity who are responsible for managing cybersecurity from the standpoint of technology infrastructure, security awareness training, and policies and procedures. They will specifically address these questions from the standpoint of managing cybersecurity within their respective organizations, including:

1. What cyber-security risk are you trying to protect?
2. What is the current status of your cyber-security initiatives? How well are you protecting against these cybersecurity threats and risks?
3. What do you foresee in the future with respect to initiatives which are designed to manage and mitigate cybersecurity risks?

### Panel:

Michael Gibbons, Chief Information Security Officer, Edward Jones. Michael Gibbons has over 25 years' experience in cyber-security, with experience in the FBI and at Edward Jones, where he serves as CISO.

Jeff Robertson, Manager of Information Security, Thompson Coburn. Jeff Robertson has served as an IT development professional and CIO at REJIS Commission and Group 360. He currently leads cyber-security initiatives at Thompson Coburn, a leading St. Louis law firm. Jeff teaches courses in cybersecurity at both UMSL and St. Louis University.

Tony Munns, Security Manager, Brown Smith Wallace. Tony has experience in developing strategies for managing and mitigating cyber-security risks.

### Panel Moderator:

Mary Sumner, Emeritus Professor of CMIS, Southern Illinois University Edwardsville and CIO, Sumnerone.

Mary has 35 years' experience teaching and building academic programs in information systems at Southern Illinois University Edwardsville. She currently teaches classes in information systems management at UMSL and SIUE.
