"Object Oriented Technology and its Impact on System Development"

Hemant Jain, University of Wisconsin Milwaukee; jain@csd.uwm.edu
Alok Chaturvedi, Krannert School of Management, Purdue University;
alok@mgmt.purdue.edu

This session will discuss recent developments in object oriented analysis and design and will examine the impact of this technology on the way information systems are currently developed. The possible restructuring of the IT industry specifically the role of IS departments will be discussed.

Outline:

1. Object Oriented Concepts
2. OMG reference model on Object Oriented Analysis & Design
3. Component Based System Development
4. Evolution of IT Industry in 21st Century.
5. Changing role of IS departments.
6. IS skill requirements.

Participants will be provided with teaching material in paper form.
